## Fred M & Anita Bruni Community Center

### Special points of interest:

- Yoga
- Computer Classes
- ESL Classes
- Bread Distribution
- Dental Clinic Registration
- Applications for water and sewer hookups

### Dental Clinic

The Fred & Anita Bruni Community Center is having dental clinic on May 27th & 28th for the residents of Peñitas. These services will be free and provide a variety of dental work for the residents. This month we had a presentation to let the people know about the dental clinic and were also asked to fill out a small survey. After the presentation they were given their appointments.

The dental clinic will also be coming for two day in June to help as many people as possible. We hope that all of our resident take full advantage of these services.

### Applications for Water & Sewer Hookups

Aside from all the monthly programs the center is providing, we are also helping to fill out applications for residents that are connecting their water and sewer hook-

ups. The application can be somewhat lengthy and we wanted to extend our services to the residents in helping with the applications. Ms. Juanita Puente is also help-

ing fill out applications for grants to assist with these types of hookups to those who qualify. If anyone needs more information please call our office at 956-417-3330.
