**Proper Installation, Testing, Programming and Training (Where needed) will be required on all Components Integrated to the Control Room Touch Panel, the Joy Stick-Compact Allegiant Keyboard RS-485, the Bosch Video Display UML-170-90 Monitor, Jeron 43S5 Administrative Master Station, the Allegiant Video Matrix (Current Matrix will need to be exchanged by Vendor), Jeron Spectrum 430 Plus Digital Intercom, Telecor Amplifier, Quam Paging Speaker, Jeron master Intercom, Jeron Digital/Analog Line Card, Jeron Central Exchange, Jeron paging Interface, Jeron Intercom Substation Jeron Administration Program Software, Omron CPU and any other equipment that must be Integrated, should be included in the Quote.

Integration of all Existing Equipment:

Southern Steel Detention Doors, Telecor Paging System, Telecor Amplifier, Bosch Allegiant Joy Stick, Bosch Allegiant Controller, Omron Controller Locks System, Output/Input Modules, Jeron 430 Plus Digital Intercom Board, Jeron Intercoms, Jeron Central Exchange, Sally Port Overhead Doors, and all the equipment listed on the Manufacturers Reference List.

Dimensions:

The area to be covered is 30 feet height by 325 feet length by 200 feet width. All cameras must be accessible from our current Touch Panel Monitoring Software - Indusoft Web Studio. This current Monitoring Software must be bridged with the new Bosch Video Management System software to connect the new digital video recorders.

Notes to Vendor:

- Vendor must be willing to work with purchase orders and partial payments
- Vendor must provide and update Detention Equipment and Security Electronics Operation and Maintenance Manual
- Old and New Source Code, All Manuals and Software will stay as the property of Webb County Juvenile Department.
- A Manufacturer's Contact List will be provided
- A Manufacturer's Parts Reference List will be provided
- A Current Camera List of the Youth Village Detention Area will be provided
- Standards for Juvenile Facilities Supervision and monitoring will be provided
- Vendor must be Bosch Certified on the Bosch Equipment to be worked on
- Vendor must have Certification by The Department of Homeland Security SAFETY Act for Electronic Security Services
- Vendor must have Experience on Jeron Intercom System and 4690 Administration Program Software
- Vendor must have Experience on OMRON PLC and Software OMRON (Detention Facility Division)
- Vendor must have Experience with Indusoft Web Studio
- Proof of Certification and Experience will be required by Vendor

Additional Equipment and Service to be included:

- Bosch Video Management System v. 5.0
- One Divar IP 7000 2U – Network recorder 32 Ports
- Seven Divar IP Expansion 8 channel ea.
- One Intuikey Series Keyboard
- Five 42" Hi def LCD (Liquid Crystal Display) Monitors (3 – Picket View Area, 2 – Director View Area)
- 71 Bosch Flexidome IP Outdoor 4000 Color Cameras – Vandal resistant
- 16 Bosch PTZ (Pan Tilt Zoom) IP Indoor/Outdoor Cameras
- Two 48 Port POE (Power over Ethernet) Cisco 2960 Network Switch
- Two Rack Mount UPS's (Uninterrupted power supply) - Smart UPS 1500VA LCD RM 2U 120
- Cat 6 Cabling from all cameras to switch
- Conduit stub ups where required including pass thru conduit sleeves
- 1 Camera to be moved from the Top of the Youth Village Juvenile Building to the JJAEP Building and connected at that NVR (Network Video Recorder)
- VGA (Video Graphic Adapter) wiring to be replaced in the Control Room Running to the 2 Video Displays
- A 2nd wall rack is needed and is to be provided by the Vendor in the quote
- One Year Parts / Labor Warranty

Current Issues to be resolved:

- Cameras 29 & 30 are not recording on motion (DVR would need to be replaced to resolve this issue).
Upstairs / PTZ (Pan-Tilt-Zoom) Camera's sometimes stop moving (Need to reset controller – Sometimes resetting the controller does not take care of the issue – The Controller would need to be replaced to resolve this issue).
- The new PTZ (Pan-Tilt-Zoom) cameras will have True day/night switching this will maintain a sharp focus under all lighting conditions.
- When the Youth Village Building first opened we were able to go back up to 3 months of video – At the current time we can only go back to a timeframe of less than 20 days (A Hard Drive on one of the recorders has gone bad and can no longer be fixed without replacing equipment) Disk Space will allow us to keep recordings for a longer period of time on the NVR's. Estimated timeframe by the new Terabyte Disk Storage will be at least 6 months of video on all Cameras.
- Analog Camera's are being phased out along with the current recorders (DVR's – Digital Video Recorders) and are being replaced by Digital Camera's and NVR's (Network Video Recorders)
- The current UPS's (uninterrupted power supply) are out and need to be replaced in order for constant recording to continue during a power outage.

Specialty work:

Cameras will require a lift to access them to reach to 30-40 feet height.

Additional Cameras may require drilling through cement.

Replacement of all cabling must be done to connect the Digital Camera's to the NVR's (network video recorders).

**Programming of the Touch Panel Monitoring System

The current cameras must be removed carefully for future use. The current cameras will be used at Probation, JJAEP and the new Drug rehab center.

8.0 CERTIFICATION
REGARDING DEBARMENT, SUSPENSION, INELIGIBILITY AND VOLUNTARY EXCLUSION FOR COVERED CONTRACTS

PART A.

Federal Executive Orders 12549 and 12689 require the Texas Department of Agriculture (TDA) to screen each covered potential contractor to determine whether each has a right to obtain a contract in accordance with federal regulations on debarment, suspension, ineligibility, and voluntary exclusion. Each covered contractor must also screen each of its covered subcontractors.

In this certification "contractor" refers to both contractor and subcontractor; "contract" refers to both contract and subcontract.

By signing and submitting this certification the potential contractor accepts the following terms:

1. The certification herein below is a material representation of fact upon which reliance was placed when this contract was entered into. If it is later determined that the potential contractor knowingly rendered an erroneous certification, in addition to other remedies available to the federal government, the Department of Health and Human Services, United States Department of Agriculture or other federal department or agency, or the TDA may pursue available remedies, including suspension and/or debarment.
2. The potential contractor will provide immediate written notice to the person to which this certification is submitted if at any time the potential contractor learns that the certification was erroneous when submitted or has become erroneous by reason of changed circumstances.
3. The words "covered contract", "debarred", "suspended", "ineligible", "participant", "person", "principal", "proposal", and "voluntarily excluded", as used in this certification have meanings based upon materials in the Definitions and Coverage sections of federal rules implementing Executive Order 12549. Usage is as defined in the attachment.
4. The potential contractor agrees by submitting this certification that, should the proposed covered contract be entered into, it will not knowingly enter into any subcontract with a person who is debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by the Department of Health and Human Services, United States Department of Agriculture or other federal department or agency, and/or the TDA, as applicable.

Do you have or do you anticipate having subcontractors under this proposed contract?

Yes

No

5. The potential contractor further agrees by submitting this certification that it will include this certification titled "Certification Regarding Debarment, Suspension, Ineligibility, and Voluntary Exclusion for Covered Contracts" without modification, in all covered subcontracts and in solicitations for all covered subcontracts.
6. A contractor may rely upon a certification of a potential subcontractor that it is not debarred, suspended, ineligible, or voluntarily excluded from the covered contract, unless it knows that the certification is erroneous. A contractor must, at a minimum, obtain certifications from its covered subcontractors upon each subcontract's initiation and upon each renewal.
7. Nothing contained in all the foregoing will be construed to require establishment of a system of records in order to render in good faith the certification required by this certification document. The knowledge and information of a contractor is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.
8. Except for contracts authorized under paragraph 4 of these terms, if a contractor in a covered contract knowingly enters into a covered subcontract with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the federal government, Department of Health and Human Services, United States Department of Agriculture, or other federal department or agency, as applicable, and/or the TDA may pursue available remedies, including suspension and/or debarment.

PART B. CERTIFICATION REGARDING DEBARMENT, SUSPENSION, INELIGIBILITY AND VOLUNTARY EXCLUSION FOR COVERED CONTRACTS

Indicate in the appropriate box which statement applies to the covered potential contractor:

The potential contractor certifies, by submission of this certification, that neither it nor its principals is presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participation in this contract by any federal department or agency or by the State of Texas.

The potential contractor is unable to certify to one or more of the terms in this certification. In this instance, the potential contractor must attach an explanation for each of the above terms to which he is unable to make certification. Attach the explanation(s) to this certification.

9.0 CERTIFICATION REGARDING FEDERAL LOBBYING
(Certification for Contracts, Grants, Loans, and Cooperative Agreements)

PART A. PREAMBLE

Federal legislation, Section 319 of Public Law 101-121 generally prohibits entities from using federally appropriated funds to lobby the executive or legislative branches of the federal government. Section 319 specifically requires disclosure of certain lobbying activities. A federal government-wide rule, "New Restrictions on Lobbying", published in the Federal Register, February 26, 1990, requires certification and disclosure in specific instances.

PART B. CERTIFICATION

This certification applies only to the instant federal action for which the certification is being obtained and is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by section 1352, title 31, U.S. Code. Any person who fails to file the required certification shall be subject to a civil penalty of not less than \$100,000 for each such failure.

The undersigned certifies, to the best of his or her knowledge and belief, that:

1. No federally appropriated funds have been paid or will be paid, by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of any agency, a member of Congress, an officer or employee of Congress, or an employee of a member of Congress in connection with the awarding of any federal contract, the making of any federal grant, the making of any federal loan, the entering into of any cooperative agreement, or the extension, continuation, renewal, amendment, or modification of any federal contract, grant, loan, or cooperative agreement.
2. If any funds other than federally appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a member of Congress, an officer or employee of Congress, or an employee of a member of Congress in connection with these federally funded contract, subcontract, subgrant, or cooperative agreement, the undersigned shall complete and submit Standard Form-LLL, "Disclosure Form to Report Lobbying", in accordance with its instructions. (If needed, contact the Texas Department of Agriculture to obtain a copy of Standard Form-LLL.)
3. The undersigned shall require that the language of this certification be included in the award documents for all covered subawards at all tiers (including subcontracts, subgrants, and contracts under grants, loans, and cooperative agreements) and that all covered subrecipients will certify and disclose accordingly.

Do you have or do you anticipate having covered subawards under this transaction?

NOTICE TO ALL RFPDERS

The Texas Workers' Compensation Commission has adopted Rule 110.110 effective with all RFPs advertised after September 1, 1994 and these changes affect your RFP on this project.

The TWCC has stated that it is aware that statutory requirements provided for workers' compensation insurance coverage is not being met. Rule 110.110 is designed to achieve compliance from both contractors and governmental entities... This affects both of us on this project.

Providing false or misleading certificates of coverage, failing to provide or maintain required coverage, or failing to report any change that materially affects the coverage may subject the contractor(s) or other persons providing services on this project to legal penalties. This affects your subcontractors.

Therefore, the attached is provided in accordance with the requirements on governmental entities. Please read carefully and prepare your RFP in full compliance to TWCC Rule 110.110. Failure to provide the required certificates upon submission of a RFP could result in your RFP being declared non-responsive.

According to TWCC, "This rule does not create any duty or burden on anyone which the law does not establish." Therefore, the county should not experience any increase in cost because of the need to comply with the Texas Worker's Compensation laws.

VGA : 640X480

QVGA: 320 x 240

Night Vision Distance: 50 feet

LED: 10 LED High efficiency array, 850nm

IR: Adjustable Intensity

Functionality

Day/Night: Color, Monochrome, Auto

Adjustable: Contrast, Saturation, Brightness

White Balance: 4 auto modes, manual mode and measure

Shutter: Automatic Electronic Shutter; Fixed (1/12 to 1/15000) selectable; default shutter

Backlight Compensation: On/ Off

Noise Reduction: Intelligent Dynamic Noise Reduction with separate temporal and spatial adjustments

Contrast Enhancement: On/ Off

Sharpness: Sharpness enhancement level selectable

Defog: Intelligent Defog automatically adjusts parameters for best picture in foggy or misty scenes (switchable)

Privacy Masking: Eight Independent areas, fully programmable

Video Motion Analysis: MOTION+ (preferred)

Misc. functions: image mirror, flip, pixel counter, video watermarking, display stamping, scene modes and location.

Optical

Lens Type: 3 to 10 mm Automatic Varifocal lens, IR Corrected, DC iris F1.3 – 360

Lens mount: Board mounted

Adjustment: Motorized zoom/focus

Iris Control: Automatic Iris Control

Day/Night: Switched Mechanical IR filter

Maximum Horizontal field of view: 27.8 degrees – 86.8 degrees / vertical: 20.8 degrees to 63.4 degrees

Input / Output

Analog Video Output: SMB connector, CVBS (PAL/NTSC), 1 Vpp, 75 Ohm

Audio Line In: 0.707 VRMS max, 10 kOhm typical, jack connector

Audio Line Out: 0.707 VRMS at 16 Ohm typical, jack connector

Alarm Input: 1 input

Activation: Short or 5 VDC activation

Alarm Output: 1 output - 30 VDC, max. load 0.5A

Ethernet: RJ45

Streaming Performance

Audio Streaming -Standard: G.711, 8kHz sampling rate, L16, 16kHz sampling rate
AAC-LC, 48 kbps at 16 kHz sampling rate, AAC-LC, 80 kbps at 16 kHz sampling rate

Signal to noise ratio: > 50dB

Streaming Method: Full duplex / half duplex

Video streaming: Video compression: H.264 (MP); M-jpeg

Streaming: Multiple configurable streams in H.264 and M-JPEG, configurable frame rate and bandwidth, regions of interest (ROI)

Overall IP Delay: Minimum – 300ms, Maximum – 850 ms

GOP Structure: IP

Interval: 1 to 12fps

Region: Eight Independent areas for setting encoder quality to optimize bit-rate

Local Storage

RAM: 10 sec pre-alarm recording

Memory card slot: Supporting up to 32 GB micro SDHC / 2 TB micro SDXC card.

Recording: Continuous recording, ring recording alarm/events and schedule

Software

Software features:

-Unit discovery - IP Helper

-Unit Configuration – Via web Browser or configuration manager

-Firmware update- Remotely programmable

-Software Viewing: Web Browser; Video Security Client, Video Security App; Bosch Video management System; Bosch Video Client; or third party software.

7 List account number(s) here (optional)

Requester's name and address (optional)

Part I Taxpayer Identification Number (TIN)

Enter your TIN in the appropriate box. The TIN provided must match the name given on line 1 to avoid backup withholding. For individuals, this is generally your social security number (SSN). However, for a resident alien, sole proprietor, or disregarded entity, see the Part I instructions on page 3. For other entities, it is your employer identification number (EIN). If you do not have a number, see *How to get a TIN* on page 3.

Note. If the account is in more than one name, see the instructions for line 1 and the chart on page 4 for guidelines on whose number to enter.

Part II Certification

Under penalties of perjury, I certify that:

- The number shown on this form is my correct taxpayer identification number (or I am waiting for a number to be issued to me); and
- I am not subject to backup withholding because: (a) I am exempt from backup withholding, or (b) I have not been notified by the Internal Revenue Service (IRS) that I am subject to backup withholding as a result of a failure to report all interest or dividends, or (c) the IRS has notified me that I am no longer subject to backup withholding; and
- I am a U.S. citizen or other U.S. person (defined below); and
- The FATCA code(s) entered on this form (if any) indicating that I am exempt from FATCA reporting is correct.

Certification instructions. You must cross out item 2 above if you have been notified by the IRS that you are currently subject to backup withholding because you have failed to report all interest and dividends on your tax return. For real estate transactions, item 2 does not apply. For mortgage interest paid, acquisition or abandonment of secured property, cancellation of debt, contributions to an individual retirement arrangement (IRA), and generally, payments other than interest and dividends, you are not required to sign the certification, but you must provide your correct TIN. See the instructions on page 3.

General Instructions

Section references are to the Internal Revenue Code unless otherwise noted.

Future developments. Information about developments affecting Form W-9 (such as legislation enacted after we release it) is at www.irs.gov/fw9.

Purpose of Form

An individual or entity (Form W-9 requester) who is required to file an information return with the IRS must obtain your correct taxpayer identification number (TIN) which may be your social security number (SSN), individual taxpayer identification number (ITIN), adoption taxpayer identification number (ATIN), or employer identification number (EIN), to report on an information return the amount paid to you, or other amount reportable on an information return. Examples of information returns include, but are not limited to, the following:

- Form 1099-INT (interest earned or paid)
- Form 1099-DIV (dividends, including those from stocks or mutual funds)
- Form 1099-MISC (various types of income, prizes, awards, or gross proceeds)
- Form 1099-B (stock or mutual fund sales and certain other transactions by brokers)
- Form 1099-S (proceeds from real estate transactions)
- Form 1099-K (merchant card and third party network transactions)
- Form 1098 (home mortgage interest), 1098-E (student loan interest), 1098-T (tuition)
- Form 1099-C (canceled debt)
- Form 1099-A (acquisition or abandonment of secured property)

Use Form W-9 only if you are a U.S. person (including a resident alien), to provide your correct TIN.

If you do not return Form W-9 to the requester with a TIN, you might be subject to backup withholding. See *What is backup withholding?* on page 2.

By signing the filled-out form, you:

- Certify that the TIN you are giving is correct (or you are waiting for a number to be issued),
- Certify that you are not subject to backup withholding, or
- Claim exemption from backup withholding if you are a U.S. exempt payee. If applicable, you are also certifying that as a U.S. person, your allocable share of any partnership income from a U.S. trade or business is not subject to the withholding tax on foreign partners' share of effectively connected income, and
- Certify that FATCA code(s) entered on this form (if any) indicating that you are exempt from the FATCA reporting, is correct. See *What is FATCA reporting?* on page 2 for further information.

January 1, 2015

Please be advised that SimplexGrinnell LP is a legal entity that pursuant to state law, is empowered to enter into contracts, conduct business and accordingly is the entity that has contracted with you to provide goods and/or services. You have requested a W-9 as certification that your payments to SimplexGrinnell LP are exempt from backup withholding under the Internal Revenue Code (IRC). SimplexGrinnell LP is a disregarded entity for IRC purposes. This means that for income tax purposes, SimplexGrinnell LP is treated as if it is a division of its parent company (which is regarded for income tax purposes). That entity is Tyco Fire & Security (US) Management, Inc.

Pursuant to Internal Revenue Service instructions for the W-9 form (Line 1, instruction e for Disregarded entities), we are directed to enter the owner's name (i.e. the regarded parent company) and federal employer identification number (FEIN) on Line 1. The instructions for Line 2 direct that the disregarded entity's name (i.e. SimplexGrinnell LP) be entered onto that line. We have included SimplexGrinnell LP's FEIN on Line 2, as many customers still have that number in their records and the Internal Revenue Service directs disregarded entities to continue using their own FEIN for payroll and other purposes. Accordingly, please recognize that SimplexGrinnell LP is exempt from backup withholding under the IRC and will report for income tax purposes to the Internal Revenue Service under the name and FEIN of its regarded parent company, Tyco Fire & Security (US) Management, Inc.

If you have any questions, please feel free to contact Robert S. Souka CPA, Esq. of our Tax Department at (609) 720-4721.

SimplexGrinnell LP (SG) brings strong security technical expertise, including CCTV, Access, IDS, IP networking, wireless mesh networks, and data/video feed to command control centers. SG brings a strong local and national presence and related knowledge of local conditions and agency with national support to handle any size projects. Below is a summary of relevant and recent D/B project showing our strength and experience.

PROJECT OVERVIEW

Client: University of San Diego (USD), CA
Contract Value: \$910,000

System Description: Installed Fire Alarm and Security System in 8 Buildings (1.5 millions square feet) on 170 acres site. SimplexGrinnell began the University's new security system in their service test lab as a test site, and then expanded it to the new administration building. The project included to replace the school's entire card access system and install advanced CCTV system, including video badging and a mix of 110 Pan /tilt/zoom (PTZ) cameras to new Digital Video Recorders (DVR) offering enhanced features.

Client: Naval Station Point Loma – Portsmouth Naval Shipyard, CA
Contract Value: \$156,000

System Description: Installed a new D/B Card Access System in 4 Building connected to a high secure network system in Portsmouth Naval Shipyard in Portland Maine. System included Badging Station, 6 controllers with 19 card readers, three encrypted intrusion detections systems (IDS) and video intercom systems. Complete system includes over 100 readers, multiple workstations and security points for high security military shipyard.

PROJECT OVERVIEW (Con't)

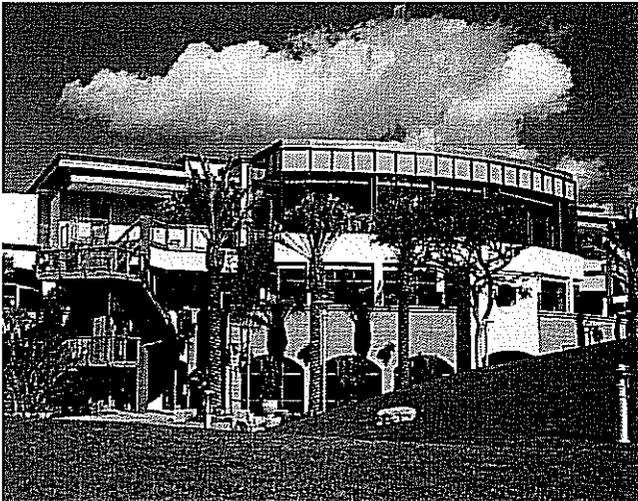

Client: Naval Medical Center San Diego (NMCS), CA
Contract Value: \$985,190

System Description: SG installed a D/B 145 cameras, on new wireless mesh infrastructure consisting of mesh enabled cameras, mesh wireless routers, intelligent access points and wireless point to point broadband links over a campus of numerous buildings, including a 1 million sqft Hospital. Various location included fiber runs to provide a back bone for the Video Surveillance System, which included a new command center, NVR Servers, multiple monitors, 95 new cameras (69 fixed & 27 multiplex PTZ) and replacing 49 existing cameras.

Client: Saddleback Church
Contract Value: \$750,000

System Description: This facility has installed access control systems that reside on the facilities network. The campus is comprised of 9 buildings each with access control points. The manufacture is SimplexGrinnell /Kantach. The facility at these points can be locked down by a push or click of a mouse function. In additional the facility has 12 DVR's spread throughout the campus with over 300 cameras. The camera systems is controlled over the customers network and information is sent back to 4 servers using custom client software by SimplexGrinnell / American Dynamics

Client: University of California, Irvine Medical Center (UCI)
Contract Value: \$900,000

System Description: The UCI Medical Center Campus located in the City of Orange, has a very robust SimplexGrinnell / Software House Access Control Systems deployed throughout the entire campus. With over 50 buildings controlled over the facilities network the customer has complete control of access to areas of importance. In addition the campus also has a SimplexGrinnell / American Dynamics CCTV installed in the new state of the art Hospital. All existing cameras of the facility have been added to the new American Dynamics systems.

Optional (if needed)

Client: Naval Base San Diego (NBSD), CA
Contract Value: \$115,000

System Description: Installed a new D/B CCTV system including 73 cameras and an intrusion detection system to protect the children. This is one of 3 CDC projects on military base started and/or completed for NAVFAC Southwest on Naval Station San Diego, Naval Air Station Coronado and USMC Camp Pendleton.

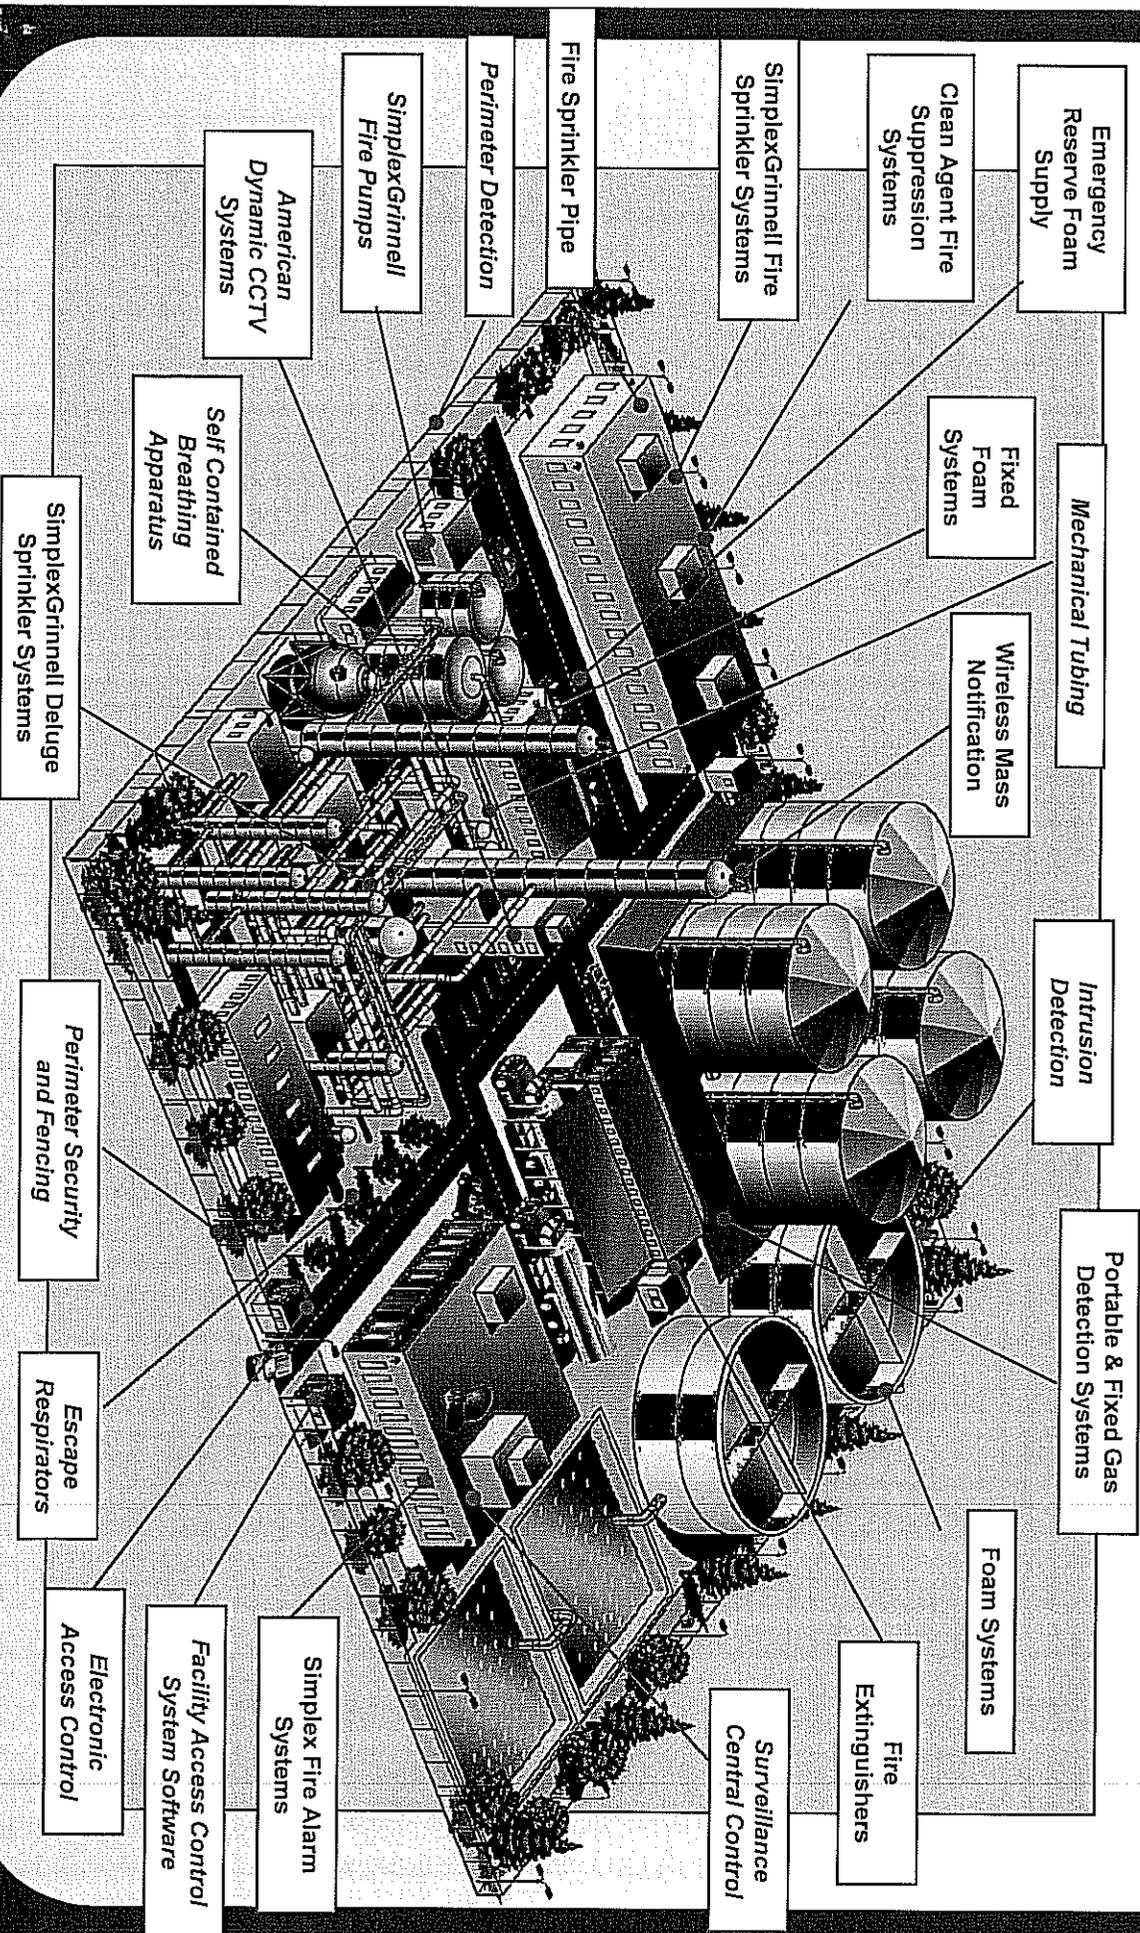

Client: Lenar Development - Belvadere / Lenox Multi Tenant High Rise
Contract Value: \$150,000

System Description: The first low rise development by Lennar in Orange County has both our SimplexGrinnell / Kantech and American Dynamics solutions for access control and CCTV. Here we control access to these luxury living environments both at a parking level to and access level of the facility. The facilities main security room also watches over the 2 buildings CCTV systems making sure that the community is as safe as it can be.
