

Question and Answer

San Carlos 1 & 2 Paving Project

1. **What is the estimate cost for this job?** Project Engineers estimate will not be disclosed but we may provide you with our funding source.
2. **Base Item says Flexible Base (CMP TY A GR 1) and on sheet C12 typical sections shows 8" caliche to use.** The answer to this question is addressed in addendum no.1.
3. **So what do I need to use exactly to place like base?** If you do not find the answer to this question in addendum no 1, please email lgtueirrez@webbcountytexas.gov
4. **Is there a place where we can get water for watering the roads or we need to find out? If so, How far is it?** You will have to coordinate with the City of Laredo to pay for a hydrant and install a commercial meter. Also, there are conditions on when you obtain the water during construction but it is best you call the city utilities department to get updated information and pricing.
