## Questions and Answers

RFP 2014- 06 "Webb County Building Roof Replacement"

- 1. The question of the difference in wording of specifications between the public notice and the RFP package (Section 07552) has surfaced.**  
**As per the Webb County engineer, we are asking the proposer to follow the specifications within the package and not the detail description included in the public notice.**
- 2. We are asking the proposer to provide a price per square foot of roof repair. This will be in a form provided by Webb County as part of an Addendum. Please remember that addendums must be signed by the proposer.**
- 3. Since TREMCO is the product identified in the specifications, we ask that your price per square foot be with the use of TREMCO materials. After a contractor is selected the brand name can be negotiated with the selected contractor.**
